

Science Writing – Natural Resources and Earth Day

Writing Assignment: You will write four paragraphs about natural resources and Earth Day.

- Use **good writing** and answer each question in a complete sentence on lined paper.
- **Add details** to your paragraphs to make them longer.
- Your **paragraphs** need to be at least **five sentences long**.
- You can **use your science book** and the **National Geographic Kids** articles.

Paragraph 1: What are natural resources? What is the difference between renewable and nonrenewable resources? Give some examples. What type of natural resources do you use?

Paragraph 2: What is Earth Day? When is Earth Day? What is the history of Earth Day?

Paragraph 3: What are things you can do to celebrate Earth Day and help the planet?

Paragraph 4: What are some negative effects of plastic on the environment and animals?
