

Science – Natural Resources – Day 2

Step 1: Read pages 296- 301 in your science book.

Step 2: Complete the Active Reading sections. Below are all of the Active Reading sections you need to complete.

Page 296- Circle three sentences that show land used as a natural resource to produce food.

Page 297 – Look at the legend key. Four things are renewable resources and two are nonrenewable. Circle the renewable resources and put an X over the nonrenewable resources.

Page 299 – Put a star next to each sentence that describes a use for water. You will put a star next to two sentences.

Page 299 – A Day Without Water. List at least three ways you use water in a day.

Page 301 – Reusing Resources at Home – complete this box.

Step 3: Complete the Sum It Up on page 302.

Step 4: Watch the video and make corrections as needed.
